NEW YORK. December 21,—To-day's was a homay stock market in the seasonable admess which restricted the activities aimest wholly to the closing of contracts. The holiday spirit was manifest has but the cheerin and hopern, schilment prevaining.

Borrowing on call to-day carried over until stonday, and the evidence of oversupply of funds as the day progressed helped to allay apprehension on this point and conducted to the stiffening of prices of stocks.

Discounts eased also in foreign marizates, and and the prospect of money relaxation after the turn of the year.

Individual stocks here and there continued to show marked strength, but the subsequent course of stocks which have had such movements recently does not inspire confidence in the example. Reading second preferred collapsed violently to-day, running off 111-2 points from the top price touched in the voiatile rise of yesterday.

The most conspicuous movement to The most conspicuous movement to-day was in the Rock Island group, both in the stocks and in the collateral bonds secured by the old Rock Island stock. the till figured as the chief Influence in the movement.

The general confidence in the good prospects for individual cases was a helpful factor in keeping prices up. A number of industrials were affected by this influence and by organized market operations in connection with it. An advance in copper metal in Loudon gave an upward impetus to stocks of the copper industrials.

The bank statement did not appear until after the stock market closed, and was not appraised in the dealings were, unless the reactionary movement late in the day was due to some advance knowledge that the showing would be rather less favorable than was expected.
